

Online Account Management

Linde Canada Inc. works to make it easier to do business with us. Our online account management portal will allow you to:

- 1) Receive your invoices/statements electronically
- 2) View, print, save or download invoices into a spreadsheet
- 3) Pay your invoices online using your credit card

Receive

E-invoicing is an easy and efficient way to receive copies of your invoice electronically. E-invoicing helps reduce paper and envelopes and eliminates the need to wait to receive invoices through the mail. Some benefits of e-invoicing are:

- Timely receipt of invoices/statements as attachments or as links in an email
- Obtain additional copies of invoices electronically (up to 6 months after invoice has been issued)
- Manage multiple accounts with multiple users under the same registration (up to 5 separate email addresses)
- Waiving of the paper invoice fee

Pay

You can also pay your invoices online, at a time convenient to you (24/7), saving you time and money vs sending a cheque. Some benefits of paying online are:

- Set up BillPay Assist to automatically pay your bills when they become due or on a certain day of the month
- Make a one-time payment on your account using your credit card without having to enroll in the website
- Register for an account and use your credit card to pay multiple invoices (Visa, Mastercard and American Express are accepted)

EFT (Electronic Funds Transfer) is another option available for payments through your own online banking, please ensure remittance advice is sent to Cashappdb Brampton@linde.com
